## A Desirable Alternative to Nursing Homes

Large surveys by the AARP demonstrate that people prefer homecare to nursing homes at a rate of 25 to 1. In your own home, you are in charge. Liberty provides qualified professionals who will improve your freedom and independence while protecting your health and safety. In nursing homes, aides help multiple people at the same time. In your home, one professional from Liberty dedicates all his or her attention to *your* needs and preferences.
